Item #: GDH-soft

IMPORTANT: REFER TO THE SAFETY AND TECHNICAL DATA INFORMATION FOR THE PROPER USE OF THIS HOSE

This is a quality soft wall gasoline pump hose used in applications that do not require hardwall hose. The multiple spiral reinforcement provides increased strength over one or two braid hose without sacrificing flexibility or ease of handling. The cover is highly resistant to cuts, abrasion, sun and weather, and will not scratch or mark vehicle finish. This hose is for use with diesel; leaded, unleaded and oxygenated gasoline products.

- Tube: Black Nitrile
- Black
- Reinforcement: Multiple textile spirals with static wire
- Temp. Range: -40° F to +180° F
